

The Pile Cropper

For cutting square pre-cast single reinforcement piles, The Pile Cropper is light and easy to use.

The **Pile Cropper** is the chosen equipment when cutting square, pre-cast, single reinforcement bar piles. It is lowered onto the pile and using the excavators in-board hydraulics to operate the jaw, it cuts the pile every 200mm, causing the concrete to break away, exposing the rebar and a level finish. All that is left is to cut the rebar to the required height.

| THE PILE CROPPER | | |
|----------------------------------|---------|---------|
| Pile Size (mm) | 200/300 | 300/350 |
| Machine Carrier Class (tonne) | 6/15 | 6/15 |
| Oil Flow L/Min | 15/20 | 15/20 |
| Operating Oil Pressure Max (bar) | 210 | 210 |
| Height (mm) | 900 | 900 |
| Width (mm) | 550 | 600 |
| Length (mm) | 900 | 900 |
| Weight (kg) | 450 | 600 |
